MONTHLY PROJECT STATUS UPDATE

Lakeside Park, Kentucky

6/27/2023

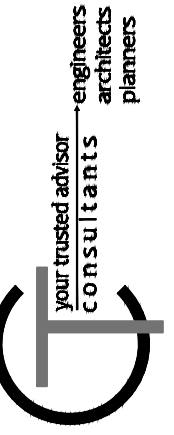

City

Date

Prepared by: Martin Hellmann

Item No.	Status	
1.	Project Name: 2023 Street Program	
	Project Number: 220718	
	<p>The 2023 street program will consist of the resurfacing of West Lakeside between Gilmore and 102 West Lakeside (where the concrete pavement begins).</p> <p>Pavement cores indicate there are several areas where there is a concrete base under the asphalt pavement. We will plan on leaving the concrete pavement in place, milling off the asphalt pavement over top and resurfacing. To account for the reflective cracking that will take place over the existing concrete pavement joints, the contractor will mark the joint locations, sawcut the asphalt pavement over the joints and crack seal them. This will result in straight reflective cracks that are properly sealed upon completion of the resurfacing project. The bid includes contingency quantities to cover full depth asphalt pavement repair and curb replacement. Areas for repair will be marked prior to milling and resurfacing.</p> <p>The project was awarded to Riegler Blacktop in the amount of \$164,354.00. All necessary documents have been received from Riegler Blacktop. A pre-construction meeting was held with Riegler Blacktop on 3/29/2023. The contract books have been executed. A field meeting will be held near the start of construction to mark areas for full depth asphalt repair and curb replacement.</p> <p>Tentative Schedule: Construction: September - October 2023</p>	
2.	Project Name: Sidewalk Assessment (ARPA Funds)	
	Project Number:	
	<p>The city has indicated that they would like to have the sidewalks in the city assessed to determine what repairs are necessary.</p> <p>Precision Concrete Cutting has provided a proposal to complete an assessment of the sidewalks in the city for \$1,767.50.</p> <p>CT Consultants recommends approval of the proposal from Precision Concrete Cutting.</p>	
3.	Project Name: Lakeside Park 5-Year Plan	
	220279	
	<p>The 5-year Joint & Crack Seal plan has been updated to reflect changes in schedule. See the attached display. The limits of the future work will be discussed at the upcoming Public Works meeting.</p>
