

CITY OF LAKESIDE PARK, KENTUCKY
PUBLIC WORKS COMMITTEE
MEETING MINUTES – JANUARY 9, 2025

Attendance: Ms. Thamann, Mr. Landwehr, Mr. Bernheimer, Mayor Markgraf, Public Works Director Mr. Greer, City Engineer Mr. Hellman

Audience: Ms. Schabell left prior to meeting being called to order.

The meeting was called to order.

City Engineer Martin Hellmann updated the committee regarding the status of the preparation of the Requests for Proposals (RFPs) for the sidewalk assessment project, estimating that the RFPs would be ready to be advertised and sent out within approximately three (3) weeks. The contractors would have approximately two (2) weeks to submit bids. Two RFPs will be issued: 1 for the grinding of minor trip hazards and one for slab replacement as previously identified.

Mr. Hellmann stated that Neyra Paving submitted an invoice for its bid amount for spot repairs as related to Applewood Drive rather than for the actual square footage of repairs made. He recommends only paying for the work actually performed.

There were no updates regarding the Crestview Hills sidewalk project, the Bellemonte Avenue resurfacing & curb replacement project, the crosswalk project and the Dixie highway benches.

Mr. Hellmann updated the bidding schedule for the 2025 Street Program to advertise on February 13, Bid Opening on February 27 and bid approval by Council on March 10.

Mr. Greer updated the committee regarding the snow removal as related to the large weather event. He also stated that the bench at the top of East lakeside was hit by a car, but will be welded when the weather clears. The moveable speed sign was moved to 259 Farmington Drive and that street sweeping went well on December 3 & 4. January 12 would be the last day to drop off Christmas trees for shredding.

Mayor Markgraf requested input from committee members as to whether to declare a snow emergency or not for January 10 in light of the current weather forecasts.

Meeting adjourned.

Adopted February 6, 2025.

Chair
